

Special Meeting
May 14, 2005, 3:00 p.m.

The full board met with Doug Bockenbauer on site to discuss the replacement of the German Coulee Bridge. The board would like to move the bridge to straighten out the road and would need a right-of-way to do so. Mr. Bockenbauer had no objections to moving the bridge as the straightening would be a benefit to him. A meeting will be set with him after a design has been completed.
